Application for the position SOFTWARE ENGINEER

Dear Hiring Managers,

This letter is to express my interest in Software Engineer position. I have experience in software development, working as full stack developer, IT consultant, software engineer. I have contributed a lot of open source projects about distributed system, concurrency and system optimization.

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn, research and development techniques are important to me and the success of your organization. I am very ambitious and believe that I can contribute to the tech communication, and further, contribute to optimize human life throughout other fields by seeking for the optimal path for problem solving.

Your listed requirements closely match my background and skills. A few I would like to highlight that would enable me to contribute to your bottom line are:

- Highly skilled in designing, testing, and architect software
- Thorough knowledge of data structures and algorithms
- Knowledgeable of back-end development best practices, distributed system, computer architectures, database, system integration.
- Hands-on software troubleshooting experience
- Proven track record of proper documentation for future maintenance and upgrades

And these are all domains I have worked with
- IIoT
- E-Commerce
- Cataloging system
- Start-up products
- Machine packaging domain
- Supply Chain
- Multi services authentication
- Distributed system
- Large scale system

I've attached a copy of my resume that details my projects and experience in software development. I can be reached anytime via my cell phone or via email at hienminhnguyen711@gmail.com

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Kind regards,

Hien Nguyen
